

AllianceBernstein Equity Income Fund

Annual Report

November 30, 2012

Investment Products Offered

- Are Not FDIC Insured
- May Lose Value
- Are Not Bank Guaranteed

Investors should consider the investment objectives, risks, charges and expenses of the Fund carefully before investing. For copies of our prospectus or summary prospectus, which contain this and other information, visit us online at www.alliancebernstein.com or contact your AllianceBernstein Investments representative. Please read the prospectus and/or summary prospectus carefully before investing.

This shareholder report must be preceded or accompanied by the Fund's prospectus for individuals who are not current shareholders of the Fund.

You may obtain a description of the Fund's proxy voting policies and procedures, and information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, without charge. Simply visit AllianceBernstein's website at www.alliancebernstein.com, or go to the Securities and Exchange Commission's (the "Commission") website at www.sec.gov, or call AllianceBernstein at (800) 227-4618.

The Fund files its complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Commission's website at www.sec.gov. The Fund's Forms N-Q may also be reviewed and copied at the Commission's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330. AllianceBernstein publishes full portfolio holdings for the Fund monthly at www.alliancebernstein.com.

AllianceBernstein Investments, Inc. (ABI) is the distributor of the AllianceBernstein family of mutual funds. ABI is a member of FINRA and is an affiliate of AllianceBernstein L.P., the manager of the funds.

AllianceBernstein® and the AB Logo are registered trademarks and service marks used by permission of the owner, AllianceBernstein L.P.

Annual Report

This report provides management's discussion of the performance for AllianceBernstein Equity Income Fund (the "Fund") for the annual reporting period ended November 30, 2012.

Investment Objectives and Policies

The Fund's investment objective is current income and long-term growth of capital. The Fund invests primarily in a diversified portfolio of equity securities of U.S. companies. Under normal circumstances, the Fund invests at least 80% of its net assets in equity securities. The Fund invests primarily in income-producing securities, targeting an investment in such securities of at least 65% of its total assets. The Fund seeks current income and capital growth from investments in a wide range of industries.

The Fund invests in companies that AllianceBernstein L.P. (the "Adviser") determines to be undervalued, using the fundamental value approach of the Adviser. The fundamental value approach seeks to identify a universe of securities that are considered to be undervalued because they are attractively priced relative to their future earnings power and dividend-paying capability. In selecting securities for the Fund's portfolio, the Adviser uses fundamental and quantitative research to identify and invest in those companies whose long-term earnings power and dividend-paying capability are not reflected in the current market price of these securities.

The Fund may invest in securities of non-U.S. companies, but will limit its

investments in any one non-U.S. country to no more than 15% of its net assets. The Fund may enter into derivatives transactions, such as options, futures contracts, forwards and swap agreements.

Investment Results

The table on page 4 provides performance data for the Fund and its benchmark, the Standard & Poor's ("S&P") 500 Index, for the six and 12-month periods ended November 30, 2012.

During both periods, the Fund rose in absolute terms, but underperformed its benchmark, before sales charges. During the 12-month period, negative sector selection, due in particular to some cash holdings detracting in an up market, hurt performance. Security selection was neutral, as positive stock selection in the energy sector was offset by weakness in the information technology sector.

During the six-month period, sector selection was positive, owing to an underweight in the information technology sector; security selection was negative, particularly in the information technology and telecommunication services sectors.

The Fund did not employ leverage or derivatives during either period.

Market Review and Investment Strategy

The large upward move in equity markets during the 12-month period ended November 30, 2012 masked wide swings in market sentiment and share prices, as investors continued to weigh conflicting evidence about the

sustainability of the economic recovery and progress toward a resolution of the European debt crisis. The period started on a positive note, as data released at the close of 2011 boosted investors' confidence that the U.S. economy was gaining momentum. The market rebound continued into the first three months of 2012, before ending in April on renewed worries about the resiliency of the U.S. recovery and familiar concerns about the escalating euro crisis. A rescue plan put forth in June by European political leaders to tentatively address the structural imbalances in the euro area, along with the anticipation of a coordinated, global monetary easing cycle led by the U.S. Federal Reserve and the European Central Bank, boosted market sentiment and led to

another rally that extended into the end of November, despite concerns that political dysfunction in the U.S. would bring about a self-imposed fiscal crisis that would threaten to derail growth in the world's biggest economy.

The Fund's focus on high cash flow, and dividend yield in particular, provided balance and improved performance, despite ongoing headwinds against value investing that have been in place since 2007. This balanced exposure, in the U.S. Equity Income Senior Investment Management Team's view, is intended to allow the Fund to continue to produce above market income, while maintaining exposure to the significant value opportunity present in the current market.

DISCLOSURES AND RISKS

Benchmark Disclosure

The unmanaged S&P® 500 Index does not reflect fees and expenses associated with the active management of a fund portfolio. The S&P 500 Index includes 500 U.S. stocks and is a common representation of the performance of the overall U.S. stock market. An investor cannot invest directly in an index and its results are not indicative of the performance for any specific investment, including the Fund.

A Word About Risk

Market Risk: The value of the Fund's investments will fluctuate as the stock or bond market fluctuates. The value of its investments may decline, sometimes rapidly and unpredictably, simply because of economic changes or other events that affect large portions of the market.

Foreign (Non-U.S.) Risk: Investments in securities of non-U.S. issuers may involve more risk than those of U.S. issuers. These securities may fluctuate more widely in price and may be less liquid due to adverse market, economic, political, regulatory or other factors.

Currency Risk: Fluctuations in currency exchange rates may negatively affect the value of the Fund's investments or reduce its returns.

Derivatives Risk: Investments in derivatives may be illiquid, difficult to price, and leveraged so that small changes may produce disproportionate losses for the Fund, and may be subject to counterparty risk to a greater degree than more traditional investments.

Management Risk: The Fund is subject to management risk because it is an actively managed investment fund. The Adviser will apply its investment techniques and risk analyses in making investment decisions for the Fund, but there is no guarantee that its techniques will produce the intended results.

These risks are fully discussed in the Fund's prospectus.

An Important Note About Historical Performance

The investment return and principal value of an investment in the Fund will fluctuate, so that shares, when redeemed, may be worth more or less than their original cost. Performance shown on the following pages represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance information shown. You may obtain performance information current to the most recent month-end by visiting www.alliancebernstein.com.

All fees and expenses related to the operation of the Fund have been deducted. Net asset value ("NAV") returns do not reflect sales charges; if sales charges were reflected, the Fund's quoted performance would be lower. SEC returns reflect the applicable sales charges for each share class: a 4.25% maximum front-end sales charge for Class A shares; the applicable contingent deferred sales charge for Class B shares (4% year 1, 3% year 2, 2% year 3, 1% year 4); a 1% 1-year contingent deferred sales charge for Class C shares. Returns for different share classes will vary due to different expenses associated with each class. Performance assumes reinvestment of distributions and does not account for taxes.

HISTORICAL PERFORMANCE

THE FUND VS. ITS BENCHMARK PERIODS ENDED NOVEMBER 30, 2012	NAV Returns	
	6 Months	12 Months
AllianceBernstein Equity Income Fund†		
Class A	8.65%	14.55%
Class B*	8.30%	13.77%
Class C	8.28%	13.75%
Advisor Class**	8.84%	14.93%
Class R**	8.52%	14.22%
Class K**	8.68%	14.61%
Class I**	8.88%	14.96%
S&P 500 Index	9.32%	16.13%
† Includes the impact of proceeds received and credited to the Fund resulting from class action settlements, which enhanced the performance of all share classes of the Fund for the six- and 12-month periods ended November 30, 2012 by 0.08% and 0.09%, respectively. * Effective January 31, 2009, Class B shares are no longer available for purchase to new investors. Please see Note A for more information. ** Please note that these share classes are for investors purchasing shares through accounts established under certain fee-based programs sponsored and maintained by certain broker-dealers and financial intermediaries, institutional pension plans and/or investment advisory clients of, and certain other persons associated with, the Adviser and its affiliates or the Fund. <i>Please keep in mind that high, double-digit returns are highly unusual and cannot be sustained. Investors should also be aware that these returns were primarily achieved during favorable market conditions.</i>

GROWTH OF A \$10,000 INVESTMENT IN THE FUND 11/30/02 TO 11/30/12

This chart illustrates the total value of an assumed \$10,000 investment in AllianceBernstein Equity Income Fund Class A shares (from 11/30/02 to 11/30/12) as compared to the performance of the Fund's benchmark. The chart reflects the deduction of the maximum 4.25% sales charge from the initial \$10,000 investment in the Fund and assumes the reinvestment of dividends and capital gains distributions.

See Disclosures, Risks and Note about Historical Performance on page 3.

The Fund's prospectus fee table shows the Fund's total annual operating expense ratios as 1.23%, 1.99%, 1.94%, 0.91%, 1.54%, 1.24% and 0.92% for Class A, Class B, Class C, Advisor Class, Class R, Class K and Class I shares, respectively, gross of any fee waivers or expense reimbursements. Contractual fee waivers and/or expense reimbursements limit the Fund's annual operating expense ratios to 1.25%, 1.95%, 1.95%, 0.95%, 1.45%, 1.20% and 0.95% for Class A, Class B, Class C, Advisor Class, Class R, Class K and Class I shares, respectively. These waivers/reimbursements extend through March 1, 2013 and may be extended by the Adviser for additional one-year terms. Absent reimbursements or waivers, performance would have been lower.

^(a) Assumes conversion of Class B shares into Class A shares after eight years.

[†] These share classes are offered at NAV to eligible investors and their SEC returns are the same as the NAV returns. Please note that these share classes are for investors purchasing shares through accounts established under certain fee-based programs sponsored and maintained by certain broker-dealers and financial intermediaries, institutional pension plans and/or investment advisory clients of, and certain other persons associated with, the Adviser and its affiliates or the Fund. The inception date for Class R, Class K and Class I shares is listed below.

^{*} Inception date: 3/1/05.

FUND EXPENSES

(unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, contingent deferred sales charges on redemptions and (2) ongoing costs, including management fees; distribution (12b-1) fees; and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period as indicated below.

Actual Expenses

The table below provides information about actual account values and actual expenses. You may use the information, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The table below also provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed annual rate of return of 5% before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds by comparing this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), or contingent deferred sales charges on redemptions. Therefore, the hypothetical example is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Beginning Account Value June 1, 2012	Ending Account Value November 30, 2012	Expenses Paid During Period*	Annualized Expense Ratio*
Class A				
Actual	\$ 1,000	\$ 1,086.50	\$ 6.05	1.16%
Hypothetical**	\$ 1,000	\$ 1,019.20	\$ 5.86	1.16%
Class B				
Actual	\$ 1,000	\$ 1,083.00	\$ 9.84	1.89%
Hypothetical**	\$ 1,000	\$ 1,015.55	\$ 9.52	1.89%
Class C				
Actual	\$ 1,000	\$ 1,082.80	\$ 9.74	1.87%
Hypothetical**	\$ 1,000	\$ 1,015.65	\$ 9.42	1.87%
Advisor Class				
Actual	\$ 1,000	\$ 1,088.40	\$ 4.49	0.86%
Hypothetical**	\$ 1,000	\$ 1,020.70	\$ 4.34	0.86%
Class R				
Actual	\$ 1,000	\$ 1,085.20	\$ 7.45	1.43%
Hypothetical**	\$ 1,000	\$ 1,017.85	\$ 7.21	1.43%
Class K				
Actual	\$ 1,000	\$ 1,086.80	\$ 5.90	1.13%
Hypothetical**	\$ 1,000	\$ 1,019.35	\$ 5.70	1.13%
Class I				
Actual	\$ 1,000	\$ 1,088.80	\$ 4.07	0.78%
Hypothetical**	\$ 1,000	\$ 1,021.10	\$ 3.94	0.78%

* Expenses are equal to the classes' annualized expense ratios multiplied by the average account value over the period, multiplied by 183/366 (to reflect the one-half year period).

** Assumes 5% return before expenses.

NOTES TO FINANCIAL STATEMENTS

November 30, 2012

NOTE A

Significant Accounting Policies

AllianceBernstein Equity Income Fund, Inc. (the “Fund”), organized as a Maryland corporation on July 28, 1993, is registered under the Investment Company Act of 1940 as a diversified, open-end management investment company. The Fund offers Class A, Class B, Class C, Advisor Class, Class R, Class K and Class I shares. Class A shares are sold with a front-end sales charge of up to 4.25% for purchases not exceeding \$1,000,000. With respect to purchases of \$1,000,000 or more, Class A shares redeemed within one year of purchase may be subject to a contingent deferred sales charge of 1%. Class B shares are currently sold with a contingent deferred sales charge which declines from 4% to zero depending on the period of time the shares are held. Effective January 31, 2009, sales of Class B shares of the Fund to new investors were suspended. Class B shares will only be issued (i) upon the exchange of Class B shares from another AllianceBernstein Mutual Fund, (ii) for purposes of dividend reinvestment, (iii) through the Fund's Automatic Investment Program (the “Program”) for accounts that established the Program prior to January 31, 2009, and (iv) for purchases of additional shares by Class B shareholders as of January 31, 2009. The ability to establish a new Program for accounts containing Class B shares was suspended as of January 31, 2009. Class B shares will automatically convert to Class A shares eight years after the end of the calendar month of purchase. Class C shares are subject to a contingent deferred sales charge of 1% on redemptions made within the first year after purchase. Class R and Class K shares are sold without an initial or contingent deferred sales charge. Advisor Class and Class I shares are sold without an initial or contingent deferred sales charge and are not subject to ongoing distribution expenses. All seven classes of shares have identical voting, dividend, liquidation and other rights, except that the classes bear different distribution and transfer agency expenses. Each class has exclusive voting rights with respect to its distribution plan. The financial statements have been prepared in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”) which require management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and amounts of income and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund.

1. Security Valuation

Portfolio securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at “fair value” as determined in accordance with procedures established by and under the general supervision of the Fund's Board of Directors.

In general, the market value of securities which are readily available and deemed reliable are determined as follows: Securities listed on a national securities exchange (other than securities listed on the NASDAQ Stock Market, Inc. (“NASDAQ”)) or on a foreign securities exchange are valued at the last sale price at the close of the exchange or foreign securities exchange. If there has

been no sale on such day, the securities are valued at the last traded price from the previous day. Securities listed on more than one exchange are valued by reference to the principal exchange on which the securities are traded; securities listed only on NASDAQ are valued in accordance with the NASDAQ Official Closing Price; listed or over the counter (“OTC”) market put or call options are valued at the mid level between the current bid and ask prices. If either a current bid or current ask price is unavailable, AllianceBernstein L.P. (the “Adviser”) will have discretion to determine the best valuation (e.g. last trade price in the case of listed options); open futures contracts are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuation, the last available closing settlement price is used; U.S. government securities and other debt instruments having 60 days or less remaining until maturity are valued at amortized cost if their original maturity was 60 days or less; or by amortizing their fair value as of the 61st day prior to maturity if their original term to maturity exceeded 60 days; fixed-income securities, including mortgage backed and asset backed securities, may be valued on the basis of prices provided by a pricing service or at a price obtained from one or more of the major broker/dealers. In cases where broker/dealer quotes are obtained, the Adviser may establish procedures whereby changes in market yields or spreads are used to adjust, on a daily basis, a recently obtained quoted price on a security. Swaps and other derivatives are valued daily, primarily using independent pricing services, independent pricing models using market inputs, as well as third party broker-dealers or counterparties. Investments in money market funds are valued at their net asset value each day.

Securities for which market quotations are not readily available (including restricted securities) or are deemed unreliable are valued at fair value. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, analysis of the issuer's financial statements or other available documents. In addition, the Fund may use fair value pricing for securities primarily traded in non-U.S. markets because most foreign markets close well before the Fund values its securities at 4:00 p.m., Eastern Time. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred in the interim and may materially affect the value of those securities. To account for this, the Fund may frequently value many of its foreign equity securities using fair value prices based on third party vendor modeling tools to the extent available.

2. Fair Value Measurements

In accordance with U.S. GAAP regarding fair value measurements, fair value is defined as the price that the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. U.S. GAAP establishes a framework for measuring fair value, and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset (including those valued based on their market values as described in Note 1 above) or liability. Inputs may be observable or

unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's own assumptions about the assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. Each investment is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

- Level 1—quoted prices in active markets for identical investments
- Level 2—other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3—significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Where readily available market prices or relevant bid prices are not available for certain equity investments, such investments may be valued based on similar publicly traded investments, movements in relevant indices since last available prices or based upon underlying company fundamentals and comparable company data (such as multiples to earnings or other multiples to equity). Where an investment is valued using an observable input, by pricing vendors, such as another publicly traded security, the investment will be classified as Level 2. If management determines that an adjustment is appropriate based on restrictions on resale, illiquidity or uncertainty, and such adjustment is a significant component of the valuation, the investment will be classified as Level 3. An investment will also be classified as Level 3 where management uses company fundamentals and other significant inputs to determine the valuation.

The following table summarizes the valuation of the Fund's investments by the above fair value hierarchy levels as of November 30, 2012:

Investments in Securities:	Level 1	Level 2	Level 3	Total
Assets:				
Common Stocks*	\$ 520,872,055	\$ - 0 -	\$ - 0 -	\$ 520,872,055
Short-Term Investments	4,166,566	- 0 -	- 0 -	4,166,566
Investments of Cash Collateral for Securities				
Loaned in Affiliated Money Market Fund ...	29,046,349	- 0 -	- 0 -	29,046,349
Total Investments in Securities	554,084,970	- 0 -	- 0 -	554,084,970
Other Financial Instruments**	- 0 -	- 0 -	- 0 -	- 0 -
Total+	\$ 554,084,970	\$ - 0 -	\$ - 0 -	\$ 554,084,970

* See Portfolio of Investments for sector classifications.

** Other financial instruments are derivative instruments, such as futures, forwards and swap contracts, which are valued at the unrealized appreciation/depreciation on the instrument.

+ There were no transfers between Level 1 and Level 2 during the reporting period.

The Fund recognizes all transfers between levels of the fair value hierarchy and assumes the financial instruments were transferred at the beginning of the reporting period.

The Adviser has established a Valuation Committee (the “Committee”) which is responsible for overseeing the pricing and valuation of all securities held in the Fund. The Committee operates under pricing and valuation policies and procedures established by the Adviser and approved by the Board, including pricing policies which set forth the mechanisms and processes to be employed on a daily basis to implement these policies and procedures. In particular, the pricing policies describe how to determine market quotations for securities and other instruments. The Committee’s responsibilities include: 1) fair value and liquidity determinations (and oversight of any third parties to whom any responsibility for fair value and liquidity determinations is delegated), and 2) regular monitoring of the Adviser’s pricing and valuation policies and procedures and modification or enhancement of these policies and procedures (or recommendation of the modification of these policies and procedures) as the Committee believes appropriate.

The Committee is also responsible for monitoring the implementation of the pricing policies by the Adviser’s Pricing Group (the “Pricing Group”) and a third party which performs certain pricing functions in accordance with the pricing policies. The Pricing Group is responsible for the oversight of the third party on a day-to-day basis. The Committee and the Pricing Group perform a series of activities to provide reasonable comfort over the accuracy of prices including: 1) periodic vendor due diligence meetings, review methodologies, new developments, process at vendors, 2) daily compare of security valuation versus prior day for all securities that exceeded established thresholds, and 3) daily review of unpriced, stale, and variance reports with exceptions reviewed by senior management and the Committee.

In addition, there are several processes outside of the pricing process that are used to monitor valuation issues including: 1) performance and performance attribution reports are monitored for anomalous impacts based upon benchmark performance, and 2) portfolio managers review all portfolios for performance and analytics (which are generated using the Adviser’s prices).

3. Currency Translation

Assets and liabilities denominated in foreign currencies and commitments under forward currency exchange contracts are translated into U.S. dollars at the mean of the quoted bid and ask prices of such currencies against the U.S. dollar. Purchases and sales of portfolio securities are translated into U.S. dollars at the rates of exchange prevailing when such securities were acquired or sold. Income and expenses are translated into U.S. dollars at rates of exchange prevailing when accrued.

Net realized gain or loss on foreign currency transactions represents foreign exchange gains and losses from sales and maturities of foreign fixed income

investments, foreign currency exchange contracts, holding of foreign currencies, currency gains or losses realized between the trade and settlement dates on foreign investment transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized currency gains and losses from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of net unrealized appreciation or depreciation of foreign currency denominated assets and liabilities.

4. Taxes

It is the Fund's policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its investment company taxable income and net realized gains, if any, to shareholders. Therefore, no provisions for federal income or excise taxes are required. The Fund may be subject to taxes imposed by countries in which it invests. Such taxes are generally based on income and/or capital gains earned or repatriated. Taxes are accrued and applied to net investment income, net realized gains and net unrealized appreciation/depreciation as such income and/or gains are earned.

In accordance with U.S. GAAP requirements regarding accounting for uncertainties in income taxes, management has analyzed the Fund's tax positions taken or expected to be taken on federal and state income tax returns for all open tax years (the current and the prior three tax years) and has concluded that no provision for income tax is required in the Fund's financial statements.

5. Investment Income and Investment Transactions

Dividend income is recorded on the ex-dividend date or as soon as the Fund is informed of the dividend. Interest income is accrued daily. Investment transactions are accounted for on the date the securities are purchased or sold. Investment gains or losses are determined on the identified cost basis. The Fund amortizes premiums and accretes discounts as adjustments to interest income.

6. Class Allocations

All income earned and expenses incurred by the Fund are borne on a pro-rata basis by each outstanding class of shares, based on the proportionate interest in the Fund represented by the net assets of such class, except for class specific expenses which are allocated to the respective class. Realized and unrealized gains and losses are allocated among the various share classes based on respective net assets.

7. Dividends and Distributions

Dividends and distributions to shareholders, if any, are recorded on the ex-dividend date. Income dividends and capital gains distributions are determined in accordance with federal tax regulations and may differ from those determined in accordance with U.S. GAAP. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on their federal tax basis treatment; temporary differences do not require such reclassification.

NOTE B**Advisory Fee and Other Transactions with Affiliates**

Under the terms of the investment advisory agreement, the Fund pays the Adviser an advisory fee at an annual rate of .55% of the first \$2.5 billion, .45% of the next \$2.5 billion and .40% in excess of \$5 billion, of the Fund's average daily net assets. Effective September 1, 2010, the Adviser has agreed to waive its fees and bear certain expenses to the extent necessary to limit total operating expenses on an annual basis to 1.25%, 1.95%, 1.95%, .95%, 1.45%, 1.20% and .95% of the daily average net assets for the Class A, Class B, Class C, Advisor Class, Class R, Class K and Class I shares, respectively. For the year ended November 30, 2012, there was no such reimbursement.

Pursuant to the investment advisory agreement, the Fund may reimburse the Adviser for certain legal and accounting services provided to the Fund by the Adviser. For the year ended November 30, 2012, the reimbursement for such services amounted to \$61,734.

The Fund compensates AllianceBernstein Investor Services, Inc. ("ABIS"), a wholly-owned subsidiary of the Adviser, under a Transfer Agency Agreement for providing personnel and facilities to perform transfer agency services for the Fund. ABIS may make payments to intermediaries that provide omnibus account services, sub-accounting services and/or networking services. Such compensation retained by ABIS amounted to \$237,872 for the year ended November 30, 2012.

AllianceBernstein Investments, Inc. (the "Distributor"), a wholly-owned subsidiary of the Adviser, serves as the distributor of the Fund's shares. The Distributor has advised the Fund that it has retained front-end sales charges of \$52,684 from the sale of Class A shares and received \$1,802, \$3,982 and \$13,003 in contingent deferred sales charges imposed upon redemptions by shareholders of Class A, Class B and Class C shares, respectively, for the year ended November 30, 2012.

The Fund may invest in the AllianceBernstein Fixed-Income Shares, Inc.—Government STIF Portfolio ("Government STIF Portfolio"), an open-end management investment company managed by the Adviser. The Government STIF Portfolio is offered as a cash management option to mutual funds and other institutional accounts of the Adviser, and is not available for direct purchase by members of the public. The Government STIF Portfolio pays no investment management fees but does bear its own expenses. A summary of the Fund's transactions in shares of the Government STIF Portfolio for the year ended November 30, 2012 is as follows:

Market Value November 30, 2011 (000)	Purchases at Cost (000)	Sales Proceeds (000)	Market Value November 30, 2012 (000)	Dividend Income (000)
\$ 4,011	\$ 203,599	\$ 203,443	\$ 4,167	\$ 7

Brokerage commissions paid on investment transactions for the year ended November 30, 2012 amounted to \$434,575, of which \$0 and \$0, respectively, was paid to Sanford C. Bernstein & Co. LLC and Sanford C. Bernstein Limited, affiliates of the Adviser.

NOTE C

Distribution Services Agreement

The Fund has adopted a Distribution Services Agreement (the "Agreement") pursuant to Rule 12b-1 under the Investment Company Act of 1940. Under the Agreement, the Fund pays distribution and servicing fees to the Distributor at an annual rate of up to .30% of the Fund's average daily net assets attributable to Class A shares, 1% of the Fund's average daily net assets attributable to both Class B and Class C shares, .50% of the Fund's average daily net assets attributable to Class R shares and .25% of the Fund's average daily net assets attributable to Class K shares. There are no distribution and servicing fees on the Advisor Class and Class I shares. The fees are accrued daily and paid monthly. The Agreement provides that the Distributor will use such payments in their entirety for distribution assistance and promotional activities. Since the commencement of the Fund's operations, the Distributor has incurred expenses in excess of the distribution costs reimbursed by the Fund in the amounts of \$5,923,477, \$2,482,333, \$125,592 and \$126,051 for Class B, Class C, Class R and Class K shares, respectively. While such costs may be recovered from the Fund in future periods so long as the Agreement is in effect, the rate of the distribution and servicing fees payable under the Agreement may not be increased without a shareholder vote. In accordance with the Agreement, there is no provision for recovery of unreimbursed distribution costs incurred by the Distributor beyond the current fiscal year for Class A shares. The Agreement also provides that the Adviser may use its own resources to finance the distribution of the Fund's shares.

NOTE D

Investment Transactions

Purchases and sales of investment securities (excluding short-term investments) for the year ended November 30, 2012 were as follows:

	<u>Purchases</u>	<u>Sales</u>
Investment securities (excluding		
U.S. government securities).....	\$324,797,723	\$192,196,659
U.S. government securities.....	- 0 -	- 0 -

The cost of investments for federal income tax purposes, gross unrealized appreciation and unrealized depreciation (excluding foreign currency transactions) are as follows:

Cost	\$ 505,622,053
Gross unrealized appreciation	\$ 57,695,212
Gross unrealized depreciation	(9,232,295)
Net unrealized appreciation.....	\$ 48,462,917

1. Derivative Financial Instruments

The Fund may use derivatives in an effort to earn income and enhance returns, to replace more traditional direct investments, to obtain exposure to otherwise inaccessible markets (collectively, “investment purposes”), or to hedge or adjust the risk profile of its portfolio.

The Fund did not engage in derivatives transactions for the year ended November 30, 2012.

2. Currency Transactions

The Fund may invest in non-U.S. Dollar securities on a currency hedged or unhedged basis. The Fund may seek investment opportunities by taking long or short positions in currencies through the use of currency-related derivatives, including forward currency exchange contracts, futures and options on futures, swaps, and other options. The Fund may enter into transactions for investment opportunities when it anticipates that a foreign currency will appreciate or depreciate in value but securities denominated in that currency are not held by the Fund and do not present attractive investment opportunities. Such transactions may also be used when the Adviser believes that it may be more efficient than a direct investment in a foreign currency-denominated security. The Fund may also conduct currency exchange contracts on a spot basis (i.e., for cash at the spot rate prevailing in the currency exchange market for buying or selling currencies).

NOTE E

Securities Lending

The Fund may enter into securities lending transactions. Under the Fund's securities lending program, all loans of securities will be collateralized continually by cash. The Fund will be compensated for the loan from a portion of the net return from the income earned on cash collateral after a rebate is paid to the borrower (in some cases, this rebate may be a “negative rebate” or fee paid by the borrower to the Fund in connection with the loan), and payments are made for fees of the securities lending agent and for certain other administrative expenses. It is the policy of the Fund to receive collateral consisting of cash in an amount exceeding the value of the securities loaned. The Fund will have the right to call a loan and obtain the securities loaned at any time on notice to the borrower within the normal and customary settlement time for the securities. While the securities are on loan, the borrower is obligated to pay the Fund amounts equal to any income or other distributions from the securities. The Fund will not have the right to vote any securities during the existence of a loan, but will have the right to regain ownership of loaned securities in order to exercise voting or other ownership rights. The lending agent has agreed to indemnify the Fund in the case of default of any securities borrower. Collateral received and securities loaned are marked to market daily to ensure that the securities loaned are secured by collateral. The lending agent will invest the cash collateral received in AllianceBernstein Exchange Reserves, an eligible money market vehicle, in accordance with the investment restrictions of the Fund, and as approved by the Fund's Board of Directors. The collateral received on securities loaned is recorded as an asset as well as a corresponding liability in the statement of assets and liabilities. When the Fund lends securities, its investment performance will

continue to reflect changes in the value of the securities loaned. At November 30, 2012, the Fund had securities on loan with a value of \$28,554,441 and had received cash collateral which has been invested into AllianceBernstein Exchange Reserves of \$29,046,349. The cash collateral will be adjusted on the next business day to maintain the required collateral amount. The Fund earned securities lending income of \$134,425 and \$27,554 from the borrowers and AllianceBernstein Exchange Reserves, respectively, for the year ended November 30, 2012; these amounts are reflected in the statement of operations. A principal risk of lending portfolio securities is that the borrower will fail to return the loaned securities upon termination of the loan and that the collateral will not be sufficient to replace the loaned securities. A summary of the Fund's transactions in shares of AllianceBernstein Exchange Reserves for the year ended November 30, 2012 is as follows:

Market Value November 30, 2011 (000)	Purchases at Cost (000)	Sales Proceeds (000)	Market Value November 30, 2012 (000)	Dividend Income (000)
\$ 1,729	\$ 287,029	\$ 259,712	\$ 29,046	\$ 28

NOTE F Capital Stock

Each class consists of 3,000,000,000 authorized shares. Transactions in capital shares for each class were as follows:

NOTE G**Risks Involved in Investing in the Fund**

Foreign Securities Risk—Investing in securities of foreign companies or foreign governments involves special risks which include changes in foreign currency exchange rates and the possibility of future political and economic developments which could adversely affect the value of such securities. Moreover, securities of many foreign companies or foreign governments and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies or of the U.S. government.

Currency Risk—This is the risk that changes in foreign currency exchange rates may negatively affect the value of the Fund's investments or reduce the returns of the Fund. For example, the value of the Fund's investments in foreign currency-denominated securities or currencies may decrease if the U.S. Dollar is strong (*i.e.*, gaining value relative to other currencies) and other currencies are weak (*i.e.*, losing value relative to the U.S. Dollar). Currency markets are generally not as regulated as securities markets. Independent of the Fund's investments denominated in foreign currencies, the Fund's positions in various foreign currencies may cause the Fund to experience investment losses due to the changes in exchange rates and interest rates.

Derivatives Risk—The Fund may enter into derivative transactions such as forwards, options, futures and swaps. Derivatives may be illiquid, difficult to price, and leveraged so that small changes may produce disproportionate losses for the Fund, and subject to counterparty risk to a greater degree than more traditional investments. Derivatives may result in significant losses, including losses that are far greater than the value of the derivatives reflected in the statement of assets and liabilities.

Indemnification Risk—In the ordinary course of business, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote. Therefore, the Fund has not accrued any liability in connection with these indemnification provisions.

NOTE H**Joint Credit Facility**

A number of open-end mutual funds managed by the Adviser, including the Fund, participate in a \$140 million revolving credit facility (the "Facility") intended to provide short-term financing, if necessary, subject to certain restrictions in connection with abnormal redemption activity. Commitment fees related to the Facility are paid by the participating funds and are included in miscellaneous expenses in the statement of operations. The Fund did not utilize the Facility during the year ended November 30, 2012.

NOTE I**Distributions to Shareholders**

The tax character of distributions paid during the fiscal years ended November 30, 2012 and November 30, 2011 were as follows:

	<u>2012</u>	<u>2011</u>
Distributions paid from:		
Ordinary income	\$ 12,694,107	\$ 3,574,548
Net long-term capital gains	2,211,655	— 0
Total taxable distributions paid	<u>\$ 14,905,762</u>	<u>\$ 3,574,548</u>

As of November 30, 2012, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Undistributed ordinary income.....	\$ 3,983,608
Undistributed capital gain	5,975,734
Unrealized appreciation/(depreciation)	48,460,387 ^(a)
Total accumulated earnings/(deficit)	<u>\$ 58,419,729</u>

^(a) The difference between book-basis and tax-basis unrealized appreciation/(depreciation) is attributable primarily to the tax deferral of losses on wash sales.

For tax purposes, net capital losses may be carried over to offset future capital gains, if any. Under the Regulated Investment Company Modernization Act of 2010, funds are permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an indefinite period. These post-enactment capital losses must be utilized prior to the pre-enactment capital losses, which are subject to expiration. Post-enactment capital loss carryforwards will retain their character as either short-term or long-term capital losses rather than being considered short-term as under previous regulation. As of November 30, 2012, the Fund did not have any capital loss carryforwards.

During the current fiscal year, permanent differences primarily due to return of capital distributions received from underlying securities resulted in a net decrease in undistributed net investment income and a net increase in accumulated net realized gain on investment and foreign currency transactions. These reclassifications had no effect on net assets.

NOTE J**Recent Accounting Pronouncement**

In December 2011, the Financial Accounting Standards Board issued an Accounting Standards Update (“ASU”) related to disclosures about offsetting assets and liabilities in financial statements. The amendments in this update require an entity to disclose both gross and net information for derivatives and other financial instruments that are either offset in the statement of assets and

liabilities or subject to an enforceable master netting arrangement or similar agreement. The ASU is effective during interim or annual reporting periods beginning on or after January 1, 2013. At this time, management is evaluating the implication of this ASU and its impact on the financial statements has not been determined.

NOTE K

Subsequent Events

Management has evaluated subsequent events for possible recognition or disclosure in the financial statements through the date the financial statements are issued. Management has determined that there are no material events that would require disclosure in the Fund's financial statements through this date.

See footnote summary on page 38.

- (a) Based on average shares outstanding.
 - (b) Net of fees waived and expenses reimbursed by the Adviser.
 - (c) Amount is less than \$.005.
 - (d) Total investment return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period, and redemption on the last day of the period. Initial sales charges or contingent deferred sales charges are not reflected in the calculation of total investment return. Total return does not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. Total investment return calculated for a period of less than one year is not annualized.
 - (e) The ratio includes expenses attributable to costs of proxy solicitation.
- * Includes the impact of proceeds received and credited to the Fund resulting from class action settlements, which enhanced the Fund's performance for the years ended November 30, 2012, November 30, 2011, November 30, 2010, November 30, 2009 and November 30, 2008 by 0.09%, 0.28%, 0.27%, 1.01% and 0.05%, respectively.

See notes to financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of AllianceBernstein Equity Income Fund, Inc.

We have audited the accompanying statement of assets and liabilities of AllianceBernstein Equity Income Fund, Inc. (the “Fund”), including the portfolio of investments, as of November 30, 2012, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the three years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund’s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The financial highlights for each of the periods presented prior to December 1, 2009 were audited by other auditors whose report dated January 26, 2010 expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund’s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of November 30, 2012 by correspondence with the custodian and others or by other appropriate auditing procedures where replies from others were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of AllianceBernstein Equity Income Fund, Inc. at November 30, 2012, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the three years in the period then ended, in conformity with U.S. generally accepted accounting principles.

2012 FEDERAL TAX INFORMATION

(unaudited)

For Federal income tax purposes, the following information is furnished with respect to the distributions paid by the Fund during the taxable year ended November 30, 2012. For corporate shareholders, 90.03% of dividends paid qualify for the dividends received deduction.

For the taxable year ended November 30, 2012, the Fund designates \$14,580,104 as the maximum amount that may be considered qualified dividend income for individual shareholders.

Shareholders should not use the above information to prepare their income tax returns. The information necessary to complete your income tax returns will be included with your Form 1099-DIV which will be sent to you separately in January 2013.

THE FOLLOWING IS NOT PART OF THE SHAREHOLDER REPORT OR THE FINANCIAL STATEMENTS

SUMMARY OF SENIOR OFFICER'S EVALUATION OF INVESTMENT ADVISORY AGREEMENT¹

The following is a summary of the evaluation of the Investment Advisory Agreement between AllianceBernstein L.P. (the "Adviser") and the AllianceBernstein Equity Income Fund, Inc. (the "Fund"),^{2, 3} prepared by Philip L. Kirstein, the Senior Officer of the Fund for the Directors of the Fund, as required by the August 2004 agreement between the Adviser and the New York State Attorney General (the "NYAG"). The Senior Officer's evaluation of the Investment Advisory Agreement is not meant to diminish the responsibility or authority of the Board of Directors to perform its duties pursuant to Section 15 of the Investment Company Act of 1940 (the "40 Act") and applicable state law. The purpose of the summary is to provide shareholders with a synopsis of the independent evaluation of the reasonableness of the advisory fees proposed to be paid by the Fund which was provided to the Directors in connection with their review of the proposed approval of the continuance of the Investment Advisory Agreement.

The Senior Officer's evaluation considered the following factors:

1. Advisory fees charged to institutional and other clients of the Adviser for like services;
2. Advisory fees charged by other mutual fund companies for like services;
3. Costs to the Adviser and its affiliates of supplying services pursuant to the advisory agreement, excluding any intra-corporate profit;
4. Profit margins of the Adviser and its affiliates from supplying such services;
5. Possible economies of scale as the Fund grows larger; and
6. Nature and quality of the Adviser's services including the performance of the Fund.

¹ The information in the fee evaluation was completed on April 19, 2012 and discussed with the Board of Directors on May 1-3, 2012.

² Future references to the Fund do not include "AllianceBernstein." References in the fee summary pertaining to performance and expense ratio rankings refer to the Class A shares of the Fund.

³ Effective September 1, 2010, the Fund changed its name from AllianceBernstein Utility Income Fund, Inc. to AllianceBernstein Equity Income Fund, Inc., eliminated its policy to invest at least 80% of its assets in companies in the utilities industry, and adopted its current investment strategy. In connection with the change in investment strategy, the Fund's portfolio management team was changed.

These factors, with the exception of the first factor, are generally referred to as the “*Gartenberg* factors,” which were articulated by the United States Court of Appeals for the Second Circuit in 1982. *Gartenberg v. Merrill Lynch Asset Management, Inc.*, 694 F. 2d 923 (2d Cir. 1982). On March 30, 2010, the Supreme Court held the *Gartenberg* decision was correct in its basic formulation of what §36(b) requires: to face liability under §36(b), “an investment adviser must charge a fee that is so disproportionately large that it bears no reasonable relationship to the services rendered and could not have been the product of arm’s length bargaining.” *Jones v. Harris Associates L.P.*, 130 S. Ct. 1418 (2010). In *Jones*, the Court stated the *Gartenberg* approach fully incorporates the correct understanding of fiduciary duty within the context of section 36(b) and noted with approval that “*Gartenberg* insists that all relevant circumstances be taken into account” and “uses the range of fees that might result from arm’s length bargaining as the benchmark for reviewing challenged fees.”⁴

FUND ADVISORY FEES, NET ASSETS & EXPENSE RATIOS

The Adviser proposed that the Fund pay the advisory fee set forth in the table below for receiving the services to be provided pursuant to the Investment Advisory Agreement. The fee schedule below, implemented in January 2004 in consideration of the Adviser’s settlement with the NYAG in December 2003, is based on a master schedule that contemplates eight categories of funds with almost all funds in each category having the same advisory fee schedule.⁵

Category	Advisory Fee ⁶	Net Assets 3/31/12 (\$MIL)	Fund
Value	55 bp on 1st \$2.5 billion 45 bp on next \$2.5 billion 40 bp on the balance	\$463.3	Equity Income Fund, Inc.

The Adviser is reimbursed as specified in the Investment Advisory Agreement for certain clerical, legal, accounting, administrative and other services provided to the Fund. During the Fund’s most recently completed fiscal year, the Adviser received \$69,289 (0.03% of the Fund’s average daily net assets) for such services.

The Adviser has agreed to waive that portion of its management fees and/or reimburse the Fund for that portion of the Fund’s total operating expenses to the degree necessary to limit the Fund’s total expense ratios to the amounts set forth below for the Fund’s fiscal year. The waiver is terminable by the Adviser at

4 Jones v. Harris at 1427.
5 Most of the AllianceBernstein Mutual Funds, which the Adviser manages, were affected by the Adviser’s settlement with the NYAG.
6 The advisory fee of the Fund is based on the percentage of the Fund’s average daily net assets and is paid on a monthly basis.

the end of the Fund's fiscal year upon at least 60 days' written notice. Certain share classes of the Fund were operating below their expense caps for the most recently completed fiscal year. Accordingly, the expense limitation undertakings for those share classes were of no effect. Also, set forth below are the gross expense ratios of the Fund for the most recently completed fiscal year:

Portfolio		Expense Cap Pursuant to Expense Limitation Undertaking	Gross Expense Ratio	Fiscal Year End
Equity Income Fund, Inc.	Advisor	0.95%	0.91%	November 30
	Class A	1.25%	1.23%	
	Class B	1.95%	1.99%	
	Class C	1.95%	1.94%	
	Class R	1.45%	1.54%	
	Class K	1.20%	1.24%	
	Class I	0.95%	0.92%	

I. ADVISORY FEES CHARGED TO INSTITUTIONAL AND OTHER CLIENTS

The advisory fees charged to investment companies which the Adviser manages and sponsors are normally higher than those charged to similar sized institutional accounts, including pension plans and sub-advised investment companies. The fee differential reflects, among other things, different services provided to such clients, and different liabilities assumed. Services to be provided by the Adviser to the Fund that are not provided to non-investment company clients include providing office space and personnel to serve as Fund Officers, who among other responsibilities make the certifications required under the Sarbanes-Oxley Act of 2002, and coordinating with and monitoring the Fund's third party service providers such as Fund counsel, auditors, custodians, transfer agents and pricing services. The accounting, administrative, legal and compliance requirements for the Fund are more costly than those for institutional client assets due to the greater complexities and time required for investment companies, although as previously noted, the Adviser is reimbursed for providing such services. The Adviser also believes that it incurs substantial entrepreneurial risk when offering a new mutual fund, since establishing a new mutual fund requires a large upfront investment and it may take a long time for the fund to achieve profitability since the fund must be priced to scale from inception in order to be competitive and assets are acquired one account at a time. In addition, managing the cash flow of an investment company may be more difficult than managing that of a stable pool of assets, such as an institutional account with little cash movement in either direction, particularly, if a fund is in net redemption and the Adviser is frequently forced to sell securities to raise cash for redemptions. However, managing a fund with positive cash flow may be easier at times than managing a stable pool of assets. Finally, in recent years, investment advisers have been sued by institutional clients and have suffered reputational damage both by the attendant publicity and outcomes other than complete victories. Accordingly, the legal and reputational risks associated with institutional accounts are greater than previously thought, although still not equal to those related to the mutual fund industry.

Notwithstanding the Adviser’s view that managing an investment company is not comparable to managing other institutional accounts because the services provided are different, the Supreme Court has indicated consideration should be given to the advisory fees charged to institutional accounts with a similar investment style as the Fund.⁷ In addition to the AllianceBernstein institutional fee schedule, set forth below is what would have been the effective advisory fee of the Fund had the AllianceBernstein institutional fee schedule been applicable to the Fund versus the Fund’s advisory fee based on March 31, 2012 net assets:⁸

Fund	Net Assets 3/31/12 (\$MIL)	AllianceBernstein Institutional Fee Schedule	Effective AB Inst. Adv. Fee	Fund Advisory Fee
Equity Income Fund, Inc.	\$463.3	Equity Income 65 bp on 1st \$25 million 50 bp on next \$25 million 40 bp on next \$50 million 30 bp on next \$100 million 25 bp on the balance <i>Minimum Account Size: \$25 m</i>	0.312%	0.550%

II. MANAGEMENT FEES CHARGED BY OTHER MUTUAL FUND COMPANIES FOR LIKE SERVICES.

Lipper, Inc. (“Lipper”), an analytical service that is not affiliated with the Adviser, compared the fees charged to the Fund with fees charged to other investment companies for similar services offered by other investment advisers.⁹ Lipper’s analysis included the comparison of the Fund’s contractual management

7 The Supreme Court stated that “courts may give such comparisons the weight that they merit in light of the similarities and differences between the services that the clients in question require, but the courts must be wary of inapt comparisons.” Among the significant differences the Supreme Court noted that may exist between services provided to mutual funds and institutional accounts are “higher marketing costs.” Jones v. Harris at 1428.

8 The Adviser has indicated that with respect to institutional accounts with assets greater than \$300 million, it will negotiate a fee schedule. Discounts that are negotiated vary based upon each client relationship.

9 The Supreme Court cautioned against accepting mutual fund fee comparisons without careful scrutiny since “these comparisons are problematic because these fees, like those challenged, may not be the product of negotiations conducted at arm’s length.” Jones v. Harris at 1429.

fee, estimated at the approximate current asset level of the Fund, to the median of the Fund's Lipper Expense Group ("EG")¹⁰ and the Fund's contractual management fee ranking.¹¹

Lipper describes an EG as a representative sample of comparable funds. Lipper's standard methodology for screening funds to be included in an EG entails the consideration of several fund criteria, including fund type, investment classification/objective, load type and similar 12b-1/non-12b-1 service fees, asset (size) comparability, expense components and attributes. An EG will typically consist of seven to twenty funds.

Fund	Contractual Management Fee (%)¹²	Lipper Exp. Group Median (%)	Rank
Equity Income Fund, Inc.	0.550	0.700	2/11

Lipper also compared the Fund's total expense ratio to the medians of the Fund's EG and Lipper Expense Universe ("EU"). The EU is a broader group compared to the EG, consisting of all funds that have the same investment classifications/objective and load type as the subject Fund. Set forth below is Lipper's comparison of the Fund's total expense ratio and the medians of the Fund's EG and EU. The Fund's total expense ratio rankings are also shown.

Fund	Expense Ratio (%)¹³	Lipper Exp. Group Median (%)	Lipper Group Rank	Lipper Exp. Universe Median (%)	Lipper Universe Rank
Equity Income Fund, Inc.	1.226	1.226	6/11	1.153	32/41

Based on this analysis, the Fund has a more favorable ranking on a management fee basis than on a total expense ratio basis.

¹⁰ Lipper does not consider average account size when constructing EGs. Funds with relatively small average account sizes tend to have higher transfer agent expense ratio than comparable sized funds that have relatively large average account sizes. Note that there are limitations on Lipper expense category data because different funds categorize expenses differently.

¹¹ The contractual management fee is calculated by Lipper using the Fund's contractual management fee rate at a hypothetical asset level. The hypothetical asset level is based on the combined net assets of all classes of the Fund, rounded up to the next \$25 million. Lipper's total expense ratio information is based on the most recent annual report except as otherwise noted. A ranking of "1" would mean that the Fund had the lowest effective fee rate in the Lipper peer group.

¹² The contractual management fee rate does not reflect any expense reimbursement payments made by the Fund to the Adviser for certain clerical, legal, accounting, administrative, and other services.

¹³ Most recently completed fiscal year end Class A total expense ratio.

III. COSTS TO THE ADVISER AND ITS AFFILIATES OF SUPPLYING SERVICES PURSUANT TO THE MANAGEMENT FEE ARRANGEMENT, EXCLUDING ANY INTRA-CORPORATE PROFIT.

The Adviser utilizes two profitability reporting systems, which operate independently but are aligned with each other, to estimate the Adviser's profitability in connection with investment advisory services provided to the Fund. The Senior Officer has retained a consultant to provide independent advice regarding the alignment of the two profitability systems as well as the methodologies and allocations utilized by both profitability systems. See Section IV for additional discussion.

IV. PROFIT MARGINS OF THE ADVISER AND ITS AFFILIATES FOR SUPPLYING SUCH SERVICES.

The Fund's profitability information, prepared by the Adviser for the Board of Directors, was reviewed by the Senior Officer and the consultant. The Adviser's profitability from providing investment advisory services to the Fund increased during calendar year 2011, relative to 2010.

In addition to the Adviser's direct profits from managing the Fund, certain of the Adviser's affiliates have business relationships with the Fund and may earn a profit from providing other services to the Fund. The courts have referred to this type of business opportunity as "fall-out benefits" to the Adviser and indicated that such benefits should be factored into the evaluation of the total relationship between the Fund and the Adviser. Neither case law nor common business practice precludes the Adviser's affiliates from earning a reasonable profit on this type of relationship provided the affiliates' charges and services are competitive and the relationship otherwise complies with the 40 Act restrictions. These affiliates provide transfer agent, distribution and brokerage related services to the Fund and receive transfer agent fees, Rule 12b-1 payments, front-end sales loads, contingent deferred sales charges ("CDSC") and brokerage commissions. In addition, the Adviser benefits from soft dollar arrangements which offset expenses the Adviser would otherwise incur.

AllianceBernstein Investments, Inc. ("ABI"), an affiliate of the Adviser, is the Fund's principal underwriter. ABI and the Adviser have disclosed in the Fund's prospectus that they may make revenue sharing payments from their own resources, in addition to resources derived from sales loads and Rule 12b-1 fees, to firms that sell shares of the Fund. In 2011, ABI paid approximately 0.04% of the average monthly assets of the AllianceBernstein Mutual Funds or approximately \$17.0 million for distribution services and educational support (revenue sharing payments).

During the Fund's most recently completed fiscal year, ABI received from the Fund \$55,998, \$1,049,938 and \$30,981 in front-end sales charges, Rule 12b-1 and CDSC fees, respectively.

Fees and reimbursements for out of pocket expenses charged by AllianceBernstein Investor Services, Inc. (“ABIS”), the affiliated transfer agent for the Fund, are charged on a per account basis, based on the level of service provided and the class of share held by the account. ABIS also receives a fee per shareholder sub-account for each account maintained by an intermediary on an omnibus basis. During the Fund’s most recently completed fiscal year, ABIS received \$182,865 in fees from the Fund.¹⁴

The Fund did not effect brokerage transactions through the Adviser’s affiliate, Sanford C. Bernstein & Co., LLC (“SCB & Co.”) nor its U.K. affiliate, Sanford C. Bernstein Limited (“SCB Ltd.”), collectively “SCB,” and pay commissions for such transactions during the most recently completed fiscal year. The Adviser represented that SCB’s profitability from any future business conducted with the Fund would be comparable to the profitability of SCB’s dealings with other similar third party clients. In the ordinary course of business, SCB receives and pays liquidity rebates from electronic communications networks (“ECNs”) derived from trading for its clients. These credits and charges are not being passed onto any SCB client. The Adviser also receives certain soft dollar benefits from brokers that execute agency trades for its clients. These soft dollar benefits reduce the Adviser’s cost of doing business and increase its profitability.

V. POSSIBLE ECONOMIES OF SCALE

The Adviser has indicated that economies of scale are being shared with shareholders through fee structures,¹⁵ subsidies and enhancement to services. Based on some of the professional literature that has considered economies of scale in the mutual fund industry, it is thought that to the extent economies of scale exist, they may more often exist across a fund family as opposed to a specific fund. This is because the costs incurred by the Adviser, such as investment research or technology for trading or compliance systems can be spread across a greater asset base as the fund family increases in size. It is also possible that as the level of services required to operate a successful investment company has increased over time, and advisory firms make such investments in their business to provide services, there may be a sharing of economies of scale without a reduction in advisory fees.

14 The fees disclosed are net of any expense offsets with ABIS. An expense offset is created by the interest earned on the positive cash balance that occurs within the transfer agent account as there is a one day lag with regards to money movement from the shareholder’s account to the transfer agent’s account and then the transfer agent’s account to the Fund’s account. Due to lower average balances and interest rates during the fund’s most recently completed fiscal year, monthly fees exceeded interest credits, resulting in zero expense offsets for the period.

15 Fee structures include fee reductions, pricing at scale and breakpoints in advisory fee schedules.

An independent consultant, retained by the Senior Officer, provided the Board of Directors information on the Adviser's firm-wide average costs from 2005 through 2011 and potential economies of scale. The independent consultant noted that from 2005 through 2007 the Adviser experienced significant growth in assets under management ("AUM"). During this period, operating expenses increased, in part to keep up with growth, and in part reflecting market returns. However, from 2008 through the first quarter of 2009, AUM rapidly and significantly decreased. Some operating expenses, including base compensation and office space, adjusted more slowly during this period, resulting in an increase in average costs. Since 2009, AUM has moved within a range of \$400 to \$500 million ending 2011 with an average of \$411 million in the fourth quarter. The independent consultant noted that changes in operating expenses reflect changes in business composition and business practices in response to changes in financial markets. Finally, the independent consultant concluded that the increase in average cost and the decline in net operating margin across the company since 2008 are inconsistent with the view that there are currently "economies of scale" to be shared with clients through lower fees.

In February 2008, the independent consultant provided the Board of Directors an update of the Deli¹⁶ study on advisory fees and various fund characteristics.¹⁷ The independent consultant first reiterated the results of his previous two dimensional comparison analysis (fund size and family size) with the Board of Directors.¹⁸ The independent consultant then discussed the results of the regression model that was utilized to study the effects of various factors on advisory fees. The regression model output indicated that the bulk of the variation in fees predicted were explained by various factors, but substantially by fund AUM, family AUM, index fund indicator and investment style. The independent consultant also compared the advisory fees of the AllianceBernstein Mutual Funds to similar funds managed by 19 other large asset managers, regardless of the fund size and each Adviser's proportion of mutual fund assets to non-mutual fund assets.

16 *The Deli study, originally published in 2002 based on 1997 data and updated for the February 2008 Presentation, may be of diminished value due to the age of data used in the presentation and the changes experienced in the industry over the last four years.*

17 *The Supreme Court cautioned against accepting mutual fund fee comparisons without careful scrutiny since the fees may not be the product of negotiations conducted at arm's length. See Jones V. Harris at 1429.*

18 *The two dimensional analysis showed patterns of lower advisory fees for funds with larger asset sizes and funds from larger family sizes compared to funds with smaller asset sizes and funds from smaller family sizes, which according to the independent consultant is indicative of a sharing of economies of scale and scope. However, in less liquid and active markets, such is not the case, as the empirical analysis showed potential for diseconomies of scale in those markets. The empirical analysis also showed diminishing economies of scale and scope as funds surpassed a certain high level of assets.*

VI. NATURE AND QUALITY OF THE ADVISER'S SERVICES, INCLUDING THE PERFORMANCE OF THE FUND

With assets under management of approximately \$419 billion as of March 31, 2012, the Adviser has the investment experience to manage and provide non-investment services (described in Section I) to the Fund.

The information prepared by Lipper shows the 1, 3, 5 and 10 year performance returns and rankings¹⁹ of the Fund relative to its Lipper Performance Group ("PG") and Lipper Performance Universe ("PU")²⁰ for the periods ended February 29, 2012.²¹

	Fund Return (%)	PG Median (%)	PU Median (%)	PG Rank	PU Rank
1 year	4.38	4.38	4.23	6/11	24/52
3 year	19.48	23.00	23.60	10/10	43/46
5 year	3.60	3.37	2.09	3/9	6/42
10 year	8.84	5.24	5.30	1/5	1/26

Set forth below are the 1, 3, 5 and 10 year and since inception performance returns of the Fund (in bold)²² versus its benchmarks.²³ Fund and benchmark volatility and reward-to-variability ratio ("Sharpe Ratio") information is also shown.²⁴

¹⁹ The performance returns and rankings of the Fund are for the Fund's Class A shares. The Fund's performance returns of the Fund were provided by Lipper.

²⁰ The Fund's PG is identical to the Fund's EG. The Fund's PU is not identical to the Fund's EU as the criteria for including/excluding a fund from a PU is somewhat different from that of an EU.

²¹ The current Lipper investment classification/objective dictates the PG and PU throughout the life of the Fund even if a Fund had a different investment classification/objective at a different point in time.

²² The performance returns and risk measures shown in the table are for the Class A shares of the Fund.

²³ The Adviser provided Fund and benchmark performance return information for periods through February 29, 2012.

²⁴ Fund and benchmark volatility and Sharpe Ratio information was obtained through Lipper LANA, a database maintained by Lipper. Volatility is a statistical measure of the tendency of a market price or yield to vary over time. A Sharpe Ratio is a risk adjusted measure of return that divides a fund's return in excess of the riskless return by the fund's standard deviation. A fund with a greater volatility would be viewed as more risky than a fund with equivalent performance but lower volatility; for that reason, a greater return would be demanded for the more risky fund. A fund with a higher Sharpe Ratio would be viewed as better performing than a fund with a lower Sharpe Ratio.

**Periods Ending February 29, 2012
Annualized Performance**

	1 Year	3 Year	5 Year	10 Year	Since	Annualized		Risk
	(%)	(%)	(%)	(%)	Inception	Volatility	Sharpe	Period
	(%)	(%)	(%)	(%)	(%)	(%)	(%)	(Year)
Equity Income								
Fund, Inc. ²⁵	4.38	19.48	3.60	8.84	8.71	13.91	0.54	10
S&P 500 Index	5.12	25.56	1.58	4.17	8.02	15.92	0.22	10
S&P 500 Utility								
Index	13.57	16.43	2.10	6.97	6.16	N/A	N/A	N/A
<i>Inception Date: October 18, 1993</i>								

Based on the factors discussed above the Senior Officer's conclusion is that the proposed fee for the Fund is reasonable and within the range of what would have been negotiated at arm's-length in light of all the surrounding circumstances. This conclusion in respect of the Fund is based on an evaluation of all of these factors and no single factor was dispositive.

Dated: May 25, 2012

²⁵ The Fund's Lipper classification changed in 2010 from Utility Funds to Equity Income Funds as a result of changes to the Fund's strategy.
